

## Six Sigma Deployment

Training of Green Belts and/ Black Belts is the starting point for Lean Six Sigma transformation.

Selection of the right projects, defining the goals, and supporting the trained belts to deploy projects is of paramount importance to obtain project results and cost savings.

Beyond Z provides experienced consultants to support client organizations in scoping the projects and supporting belts in driving projects.

The consultants will mentor the belts in project management, dealing with teams and the appropriate use of Lean and Six Sigma tools and techniques.
